

EContra One-Step<sup>®</sup>  
(Levonorgestrel) Tablet, 1.5 mg

# Offer Them A Backup Option

EContra One-Step<sup>®</sup>  
is the #1 sold emergency  
contraceptive in U.S. clinics<sup>1</sup>

Brought to you by Afaxys Pharma,  
a leading provider of oral and emergency  
contraceptives in U.S. clinics<sup>2</sup>

afaxys<sup>®</sup>  
pharma

# Empower Them in One Simple Step

Unprotected sex and contraceptive failures can happen – that's why there's EContra One-Step® (levonorgestrel 1.5 mg tablet)

An over-the-counter emergency contraceptive<sup>3</sup>

Convenient, **single-tablet** dosing<sup>4</sup>

A **low-cost** option for your patients

**Comparable** to Plan B One-Step®

If your patients wish to use hormonal contraception after taking EContra One-Step, they can do so immediately without any reduction in efficacy<sup>5</sup>

EContra One-Step works for up to 72 hours (3 days) after unprotected sex<sup>4</sup>

EContra One-Step should be taken as soon as possible to reduce the chance of pregnancy. The sooner EContra One-Step is taken, the better it works.<sup>4</sup>

EContra One-Step should not be used as a regular form of contraception.<sup>4</sup>

EContra One-Step does not protect against HIV/AIDS or other sexually transmitted diseases (STDs).<sup>4</sup>

Plan B One-Step® is a registered trademark of Foundation Consumer Healthcare.

**EContra One-Step®**  
(Levonorgestrel) Tablet, 1.5 mg

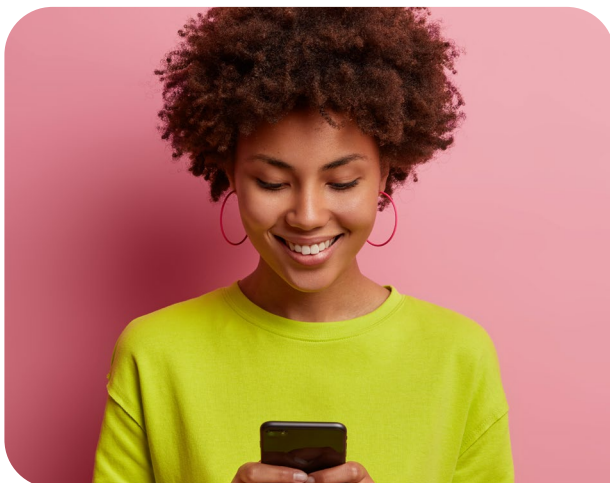

# EContra One-Step® Is the #1 Sold Emergency Contraceptive in U.S. Clinics<sup>1</sup>

Let your patients know that they can keep EContra One-Step on hand to feel prepared. Having an emergency contraceptive on hand encourages earlier use, and earlier use makes it more effective.<sup>6</sup>

If your patient is inquiring about EContra One-Step, it may be the right time to have a conversation about long-term contraceptive and reproductive health.

About 7 out of 8 women who would have gotten pregnant will not become pregnant.<sup>4</sup>
